

Fallon Ambulance Company is under contract with the Town to provide emergency medical transport services for the citizens of Brookline. Fallon works closely with the Fire and Police Departments to provide high quality, rapid emergency medical service.

The Town's dedicated Ambulance is staffed by state certified paramedics providing medical care at the advanced life support level, including the availability of semi-automatic defibrillators for use in cardiac related cases.

The Fire Department's Emergency Medical Technicians respond to all emergency medical calls and, if on the scene before the ambulance, provide immediate medical care to the patient(s).
